1658707 - DI_Error Internal error (-131) occurred connecting to DI on PL9

Version 2 **Validity:**
23.03.2012 - active

Language English

Symptom

When connecting to the DI API using the code below the error
"System.Runtime.InteropServices.COMException (0xFFFFFF82): Internal error (-131) occurred
[131-183] -
at SAPbouiCOM.CompanyClass.GetDICompany()"

Issue only occurs on a new client and not on a client that has been upgraded.

Cause

Application Error

Solution

1. Check if this file exists : C:*\SAP\SAP Business One DI API\Conf\b1-local-machine.xml

If it exists, then rename file "C:*\SAP\SAP Business One DI API\Conf\b1-local-machine.xml" to
"b1-local-machine.xml.original"

2. Copy the file from here

"C:*\SAP\SAP Business One\Conf\b1-local-machine.xml"

to

"C:*\SAP\SAP Business One DI API\Conf\b1-local-machine.xml"

Other terms

-131,DI,Error,Internal,connection,GetDICompany
